Digitizing Business Administration

OVERVIEW

Intelligence Everywhere Enterprises (IEE) is a professional IT solutions firm offering a range of specialised end-to-end information technology services and solutions for businesses and other organisations.

Based in Rosebank, Gauteng, we work with the invaluable experience of highly-qualified and dynamic professionals, taking into account the unique information technology requirements of our clients. We customise solutions that cater to their needs and expectations.

We are qualified to operate highly-complex Infrastructure architectures, integrated applications, business solutions, advanced security, and to help align critical applications with the client's evolving strategies and business goals.

IEE offers organisations a selection of services and solutions that enable them to overcome their IT challenges and improve efficiency, thereby maximising their potential and producing desired outcomes. From cloud workplace solutions and security assessments, to configuring hybrid environments and implementing disaster recovery, our wide-ranging solutions are designed to positively impact businesses.

Our company is provisioned to work with entities in the public and private sector. We are committed to servicing a broad range of industries, and pride ourselves on understanding and meeting our clients' needs effectively and efficiently.

We maintain the range of solutions that we implement on an on-going basis and offer training where necessary, allowing our clients to focus on running their businesses.

BACKGROUND

Established in 2016 as an emerging section 35 company, IEE specialised in risk, finance, technology (ICT, engineering), and HR integration at a strategic level. We have since expanded our offering to assist businesses to better transform and adopt digital technologies that improve business administration.

Having a broad understanding of both business and technology, our fusion of solutions has made us unique in the marketplace. Our ambitious nature, strategic leadership and a strong team of highly-skilled and passionate individuals ensure a bright future for us and our valued clients.

OUR VISION

We aim to empower and create value for businesses through the provision of innovative and bespoke IT solutions, leading to improved efficiencies and long-term sustainability and success for our clients.

OUR MISSION

We aim to achieve our vision through a consistent commitment to excellence. With our strong set of corporate values, we provide our clients with outstanding customer service, enabling us to maintain our impeccable reputation.

OUR VALUES

At IEE, we operate a successful business thanks to the following core values:

- ✓ We are Client-Focused, providing customised end-to-end solutions for each individual client based on the most advanced technology, knowledge and expertise.
- ✓ We aspire to be the service provider of choice due to the Efficiency of our business.
- ✓ We believe in meeting the expectations and needs of our clients with Professionalism and Precision.
- ✓ We constantly examine the way we operate in an effort to offer Excellence on a consistent basis.
- ✓ We create and nurture long-term relationships with our clients by delivering quality solutions with Patience and Diligence.
- ✓ We are dedicated to creating value through Innovation and Reliability.
- ✓ We value Honesty, Transparency and Integrity, and clients can expect open and honest communication at all times.

B-BBEE STATUS

Our company has achieved a level one B-BBEE status. We support the B-BBEE Amendment Act, No 46 of 2013 and the B-BBEE Codes of Good Practice 2007 listed therein, and ensure that our company policies reflect the same.

EMPOWERMENT POLICY

Intelligence Everywhere Enterprises will continue to prioritise and implement empowerment at all levels of the business to achieve the following objectives:

- ✓ To be majority Black-owned and managed.
- ✓ Ensure that women and disabled persons are represented at all levels.
- ✓ Create support structures and mentorship programs for young people.
- ✓ To prioritise youth empowerment and employment.
- ✓ Endeavour to ensure that sexist and racist practices are eliminated.
- ✓ Create an environment within the group, which encourages the entrepreneurial spirit of risk-taking and a “can do” attitude.

WHY US?

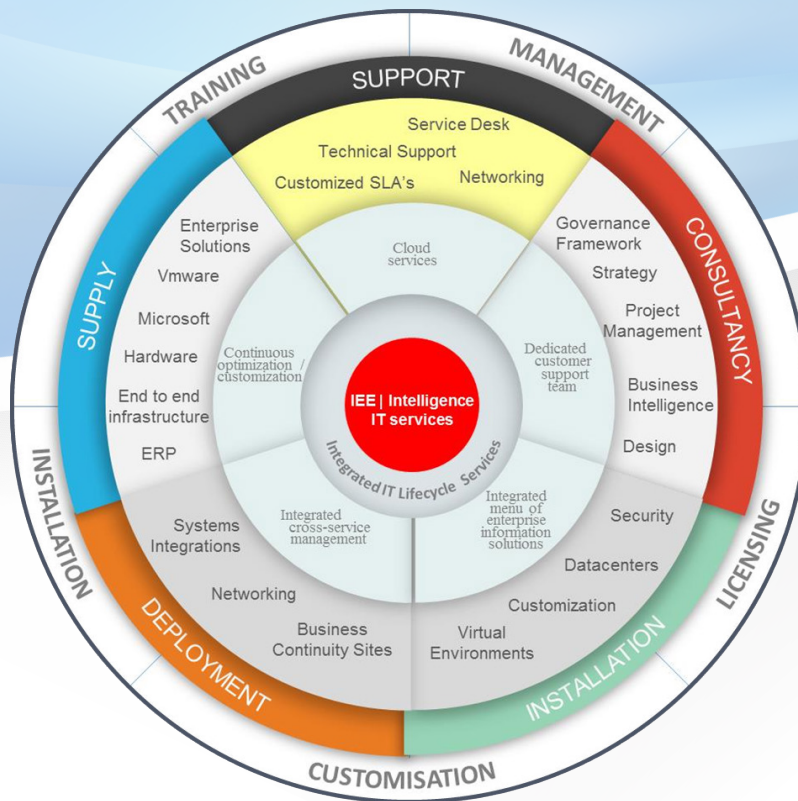

Intelligence Everywhere Enterprises leverages unrivaled industry expertise to design and implement solutions that accelerate innovation while improving project quality and profitability. Our focus on people, processes and technology is the reason why our customers choose to do business with us.

Here are a few more reasons why our clients choose us...

- ✓ Quality is important to us, and we are committed to delivering quality solutions with the complete satisfaction of the client in mind.
- ✓ Our highly-trained and experienced IT consultants offer expert advice, providing tailored recommendations and expertise to ensure that the IT systems and solutions in place are appropriate in the pursuit of our clients' business requirements.
- ✓ Our hard-working teams have a solid commitment to good communication, excellence and industry best practices to serve your company in an excellent manner.
- ✓ We listen, we are reliable and we provide clients with excellent service, regardless of the scope or size of their business.
- ✓ We are capable of providing big business thinking and resources, combined with the agility and personalised service of a small business.
- ✓ We aim to provide cost-effective solutions to ensure that our clients' investment spend does not go over budget.
- ✓ Innovation is the cornerstone of what we do, and we ensure that our training, resources and technology remains state-of-the-art at all times.
- ✓ Our help-desk team is available to ensure that our clients can focus on running their businesses while we concern ourselves with their IT requirements.
- ✓ As natural problem-solvers, we believe that our technology must fit the client's needs rather than our clients bending their business model to suit technology.

SERVICES AND SOLUTIONS

The complex, challenging and constantly-evolving information technology requirements of businesses demand a service provider that is able to evolve and anticipate the challenges that businesses experience. That is what IEE does.

We thrive on overcoming challenges and providing clients with excellent services, regardless of their scope, size or industry. We are adept at meeting the ever-changing digital needs of both the private and public sector.

By leveraging innovation and technology, we generate maximum business value while adding more responsiveness, agility and certainty to operations and applications. Our comprehensive service offering and partnerships with industry-leading firms means that we give small to medium-sized businesses access to the same innovative technologies that large corporates are able to afford.

Our Specialised Services Include:

- ◆ Cloud Solutions
- ◆ Infrastructure
- ◆ Systems Integration
- ◆ Business Applications
- ◆ Security Risk Solutions
- ◆ Workplace Strategy
- ◆ Consultancy Solutions

Cloud Solutions

IEE is adept at assisting businesses with the adoption of cloud services, to better leverage cloud infrastructure in improving business resilience and taking advantage of the impactful benefits presented by cloud technologies. These valuable benefits include improved planning, data mapping, architecture design, and on-premises to cloud integration. Our company assists businesses with cloud deployment solutions and the involved scoping and evaluation pre-processes. Our expertise and experience in this field is put to good use in guiding our clients through the implementation of a unified cloud application delivery strategy.

Our Cloud Solutions include:

- ✓ Windows Azure
- ✓ Office 365
- ✓ Dynamics 365
- ✓ Cloud Applications

Infrastructure

IEE can provision, supply, install and maintain both on-premise and cloud-based infrastructure for small and large organisations. We provide a robust, agile and flexible infrastructure that improves the productivity of any organisation. All critical elements of data insights, security and scalability are built into our infrastructure offering to enable organisations to maximise their return on investment in infrastructure.

Our Infrastructure Solutions include:

- ✓ Setting Up Multi-Cloud Environments
- ✓ Modern Data Centre Infrastructure
- ✓ Wired and Wireless Connectivity with Hybrid-WAN
- ✓ Optimisation of Infrastructure

Systems Integration

At IEE, we offer an extensive portfolio of products and system integration solutions coupled with in-depth support through our expert teams. In a highly-competitive industry with ever-changing technology, products are consistently improving and evolving. Our ability to offer seamless integration of these products and various lines of business for the benefit of our clients is what makes us a valuable partner in ensuring a maximum return on IT investments for our clients.

Business Applications

IEE designs and supplies business applications that suit our clients' business requirements precisely. We focus on driving smart business solutions for business enterprises. Our business application process involves consulting and auditing to measure organisational gaps and determine objectives. IEE is a focused provider of business intelligence, data management and financial intelligence solutions. We design and implement business applications that are aimed at achieving each unique business' objectives. To help our clients achieve their business intelligence goals, we have developed exceptional skills in reporting, data warehousing, analysis, enterprise query and reporting, dashboards, budgeting, planning and consolidation and performance management. We also monitor, upgrade and maintain the business applications to suit the ever-changing needs of our clients.

Our Business Applications Solutions include:

- ✓ Industry-Specific Solutions
- ✓ Integrate with Existing Systems
- ✓ Optimisation of Enterprise Applications
- ✓ Leverage Insights from Data Analytics
- ✓ Dynamics 365
- ✓ Office 365
- ✓ SharePoint
- ✓ Windows Azure
- ✓ Cloud Applications
- ✓ Disaster Recovery
- ✓ Business Intelligence - PowerBI

Security Risk Solutions

IEE offers the industry-leading tools and expertise to assess, reduce and mitigate security risks for our clients' information assets, often at a fraction of the cost of in-house security resources. Built around international standards and strengthened with features taken from other leading cyber security frameworks, our solutions are designed to make it as difficult as possible to breach our clients' network (data), and as easy as possible to detect and eradicate cyber threats.

Our Security Solutions include:

- ✓ Assessment & Protection
- ✓ Detection & Prevention
- ✓ Containment & Remediation
- ✓ Supply of Market-Ready Solutions

Workplace Strategy

IEE can help organisations to build a modern workplace strategy that ensures a seamless workflow for their workforce or any stakeholder in the organisation. Through optimising applications for both remote and on-site work, organisations increase efficiency while improving employee and customer experience regardless of the place of work.

Our Workplace Solutions include:

- ✓ On-Premise Solutions
- ✓ Cloud Workplace Solutions

Consultancy Solutions

Our Consultancy Solutions include the following:

- ✓ Business Advisory services
- ✓ Large scale Programme and Solution Funding Technical Assistance
- ✓ Restructuring and Turn-Around Support
- ✓ Governance
- ✓ Risk Management
- ✓ Compliance Services
- ✓ Strategy and Architecture
- ✓ Balance Sheet Integrity
- ✓ ICT Related Legal Assistance
- ✓ Business Intelligence
- ✓ Project Management

TECHNOLOGY PARTNERS

IEE partners with internationally-recognised best in class technology vendors to provide cost-effective, quality end-to-end IT solutions for clients. We leverage our partnerships with innovative technology companies for the benefit of our clients, ensuring that they are empowered to reach their peak level of business performance due to a combination of our industry-leading solutions and the comprehensive technologies available through our vendors.

Our partners are a key delivery pillar of our organisation, ensuring that our offerings are backed by solid manufacturer experience and an international pool of experts.

These internationally-recognised technology companies trust IEE to represent them with integrity, professionalism and excellence, supplying and integrating their products and solutions while providing training where necessary to ensure a return on investment for clients.

Our technology partnerships include the following international vendors:

Government Central Supplier Database

IEE is registered as a trusted supplier on the South African government's Central Supplier Database. The Central Supplier Database maintains a database of organisations, institutions and individuals who are authorised to provide goods and services to government as high-quality and reliable companies.

CSD: MAAA0332701

CORPORATE SOCIAL INVESTMENT

As a responsible corporate citizen dedicated to making a positive impact, a decision was made to contribute one percent of before-tax profits to the social responsibility fund. A trust will be set up to administer the fund. The primary focus is to invest in projects that directly contribute to the education and vocational training of staff for careers in the ICT industry.

The reason for focusing on ICT is threefold. Firstly, research has shown that the shortage of suitably-qualified staff from a previously-disadvantaged backgrounds is especially notable within ICT and related sectors. Secondly, IEE has a significant portion of its investments in technology, providing access to a large pool of ICT skills and resources that can add special value towards the social responsibility contribution to ICT-related projects for South Africa.

Thirdly, as a result of the focus on uplifting ICT and technology skills in previously-disadvantaged communities, IEE will be able to successfully achieve its employment equity targets by employing suitably-qualified people coming from the training and development programs invested into.
